A. C. CHATTERJI, M.B., D.P.H., LT.-COL., I.M.S., Director of Public Health, Bengal.

Calcutta, the 17th May 1937.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 5th May 1937.

Final Forecast of the Wheat Crop of Bengal, 1936-37.

(Note.—On an average of the five years ending 1934-35, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1934-35, averaged (a) 41·3 and (b) 9·7 per cent., respectively.)

Character of the season.—Since the issue of the third forecast, conditions have remained practically unchanged except in the districts of Murshidabad and Dacca where the outturn in the case of former

has increased, owing to favourable weather and in the case of latter has been reduced owing to drought.

Acreage.—According to District Officers' estimates, the total area sown is 149,500 acres this year as against 127,100 acres last year.

Outturn.—The provincial outturn as worked out from the district estimate is 84 per cent. of the normal as against 70 per cent. last year. Taking the normal yield to be 10 maunds per acre, the gross yield of the crop for the province is estimated at 46,100 tons this year as against 32,700 tons last year.

At the end of April the wholesale price of wheat in the Calcutta mart was Rs. 3-15 annas per maund or about 15 per cent. higher than the price ruling at the corresponding period of last year. B. B. DUTT,

Controller of Examinations.

Government Commercial Institute.

11, Hastings Street, Calcutta, the 20th
May 1937.

Admission for the session 1937-38.

The new session commences on the 24th
June 1937.

Applications in the prescribed form for admission into the day and evening classes of the Institute will be received immediately after the publication of the results of the Matriculation Examination of the University of Calcutta.

Twenty-five per cent. of seats in the Institute, both in the day and evening classes, are reserved for Muslim students, on condition that if within a reasonable period of time the reserved places are not filled up by the Muslim students, the vacancies will go to non-Moslems. Muslim students are therefore advised in their own interest to apply for admission without the least possible delay.

The following courses of instruction are provided at the Institute:—

Day Course, extending over two sessions and leading to the Final Diploma Examination of the Institute Board. Matriculates only will be admitted to this course, preference being given to those passing in the first division. A number of prizes and scholarships is available for meritorious students; and two special scholarships are awarded to deserving students of the backward classes.

Students passing the Final Examination at the end of this course are eligible to join the B.A. or B.Com. classes in any College affiliated to the University of Calcutta.

Evening Courses, extending over one session only. Classes are held between 4 and 8 p.m. Subjects taught include Shorthand; Typewriting; Book-keeping, Junior and Advanced; Mercantile Law; Modern English. Special Diploma Examinations of the

Institute Board are held in each of the above subjects except in Modern English and Mercantile Law.

Suitable combinations may also be indicated to those preparing for the following outside examinations:—

- (1) Divisional Accountantship Examination.
- (2) Bengal Secretariat Lower Division Clerkship Examination.
- (3) Public Service Commission Clerkship Examination.

As a rule Matriculates only are eligible for admission to the evening courses, but a non-Matriculate, engaged in business in any way, if otherwise found suitable, may be admitted.

R. A. Classes.—The Institute is the only Government institution in Bengal which prepares students for the Government of India Examinations for Registered Accountants, First and Final. Minimum qualification for admission is Matriculation. Classes are held between 5-15 and 8 p.m.

Several prizes are also available on the results of the Board's Special Examinations and of the R.A. Examinations.

The Bengal Chamber of Commerce and the Bengal National Chamber of Commerce lend their active support and patronage to this Institute by sending representatives to the Board of Management. Prizes are annually awarded by both the Chambers to meritorious students of this Institute; and lists of successful students are annually circulated among the members of the two Chambers for their information, use and record.

For full particulars and for forms of application for admission apply with one-and-a-quarter-anna stamp to the undersigned.

Calcutta, the 21st May 1937.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 19th May 1937.

Summary.—Excepting heavy showers in places the rainfall was generally light to moderate. Sowings of autumn crops are nearly finished in East and North Bengal, but more rain is needed for the progress of the operations in parts of West Bengal. Conditions of the standing crops have much improved by recent rain and the prospects appear to be satisfactory. The average price of common rice for the province has risen by about 1·31 per cent. as compared with that of the previous week.

2. The draft will be taken into consideration on or after the 9th August 1937, any objection or suggestion received by the undersigned before that date will be duly considered.

Draft rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may grant to any owner or occupier of a holding paying a water rate imposed under the provisions of Chapter VIII of the Bengal Municipal Act, 1932, on the annual value of such holding, when such annual value is not less than Rs. 125, a connecting-pipe from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only.

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes must apply for the same on the printed form A to be supplied free of cost at the municipal office. The conditions subject to which a house connection will be given are set out in the form, and the owner or occupier shall sign the statement undertaking to observe the rules before a house connection will be given.

2. A fee of Rs. 40 shall be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe before any work is commenced. An additional fee of Rs. 35 shall be paid within six months of the date of the application, failing which the connection will be cut off. The total fee shall be in addition to all other costs and charges imposed under these rules.

3. Each holding must have a separate connection to the municipal main supply-pipe. Extension from the communication-pipe of one holding to another holding shall not be permitted and combination of holdings for the purpose of these rules shall not be allowed.

4. The connection shall consist of two portions--

- (a) the service-pipe from the street main to the boundary of the holding, including ferrule, stop-cock and check-pipes;
- (b) the storage tank (or tanks) with service-pipe connecting to it from the boundary of the holding, also outlet-pipes, taps and other accessories as required.

5. The items referred to in clause (a) of rule 4 shall be provided and fixed by and at the expense of the Commissioners, and such pipes and fittings shall remain as their property.

6. The items referred to in clause (b) of rule 4 shall be provided and fixed at the expense of the owner or occupier and shall be maintained by him in good working order. The tank shall be suitably covered and protected and shall be provided with locked lid, ball-valve, stop-valve and overflow-pipe. The inlet and outlet pipes shall be so laid that they may be protected from sun-heat.

7. The owner or occupier shall not permit the service-pipe, including the items referred to in clauses (a) and (b) of rule 4 or any part thereof to be altered, removed or interfered with by any person other than an authorised representative of the Commissioners, who shall be empowered by the Commissioners to alter or adjust the service-pipe as may from time to time be necessary for the maintenance of the requisite flow of water. No tapping (or branching off) of the service-pipe shall be allowed except at a level approximately the same as that of the valve.

8. The tank referred to in rule 4(b) shall be durable and water-tight and the cover, overflow-pipe and other accessories shall be so constructed that mosquitoes cannot enter the tank, and the ball-valve and the other fittings shall be exact duplicates of standard samples kept in the office of the Commissioners and approved by them at a meeting. Discharge of water from the overflow-pipe means that the ball-valve is failing to function, and the owner or occupier shall notify the waterworks officers every time he finds such discharge occurring.

Class A.—The valuation divided by 2·5.

Class B.—The valuation divided by 4.

A "Class A" holding is one in which enough water-flushed latrines have been installed to serve the whole household, and consequently in which the services of municipal sweepers for the removal of night-soil are unnecessary.

A "Class B" holding is one in which the above condition is not fulfilled.

When the above conditions have been complied with, the Commissioners shall have the house connection adjusted so as to enable the additional water to be supplied, the adjustment of the connection and the payment being based on the particulars furnished by the applicant in form C.

12. In case the owner or occupier requires for a special occasion or for any other purpose more water than the amount to which he is entitled according to rule 10, he may apply to the Commissioners in form B (obtainable at the municipal office free of charge) for a temporary connection. He shall pay in advance the sum of Rs. 10 per

tank at cost and also shall pay weekly the following charges during the whole time he retains the temporary connection:—

- (e) For a supply of 750 gallons per day—Rs. 1-8 per day.
- (f) For a supply of 900 gallons per day—Rs. 1-12 per day.
- (g) For a supply of 1,100 gallons per day—Rs. 2 per day.

He shall state in his application the number of weeks for which the connection is required.

13. On receipt of the application, together with the fees as provided in rule 12, the Commissioners shall forthwith instal within the compound and at a level of two feet above ground an additional storage tank (or tanks) of 300 gallons capacity with ball-valve and two taps fixed to each tank. They shall connect the same to the street main by a service-pipe or pipes, and do all other work necessary to commence and maintain the supply.

The Commissioners shall keep in stock a number of tanks, with pipes, fittings, etc., for the above purpose.

14. The payment referred to in rule 12 shall be made once a week. In case the owner or occupier fails to make the payment weekly, the Commissioners or their officers may at once stop the supply of water and remove the storage tank or tanks, temporary service-pipe, etc.

15. Two or more such temporary connections may be taken, if required, on payment of additional costs and weekly charges.

16. The Commissioners may cut off the connection between any waterworks of the Commissioners and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, viz.—

- (a) if the holding is unoccupied;
- (b) if the occupier fails to pay his water rate;
- (c) if the occupier in any way interferes with, damages or alters the service-pipe; and
- (d) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection of the service-pipe or storage tank, or prevents such officer from making such examination or inspection:

Provided that twenty-four hours' notice in writing of such examination or inspection may be demanded.

17. The works required under rule 4(b) shall be carried out by a person or firm employed by owner or occupier and approved by the Commissioners. For this purpose the Commissioners shall grant licenses to approved persons or firms, who should preferably have had previous experience in plumbing work.

18. No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining away all waste water.

Extracts from Standing Rules for students.

1. Students are expected to attend 100 per cent. of the works, and those who have not put up at least 75 per cent. of possible attendances in class and 80 per cent. in field work are not allowed to appear at any examination of the Survey Education Advisory Board.

2. Ordinarily students are not granted leave out of the school for more than ten days during a session. Such leave is granted only on a requisition from the *bona fide* guardian of the student concerned.

3. Students are excused from attending the class or the field on medical grounds on the recommendation of the school medical officer. But frequent absence on medical grounds may render a student unfit for the course.

4. Students must provide themselves with drawing instruments, books and all other necessities within a week of the opening of each session.

5. Breaches of discipline are dealt with according to the rules in force in the Education Department.

6. During work out of doors students should wear shorts and shirts. Wearing sola topoe is also recommended.

As a rule Matriculates only are eligible for admission to the evening courses, but a non-Matriculate, engaged in business in any way, if otherwise found suitable, may be admitted.

Several prizes are also available on the results of the Board's Special Examinations and of the R.A. Examinations.

The Bengal Chamber of Commerce and the Bengal National Chamber of Commerce lend their active support and patronage to this Institute by sending representatives to the Board of Management. Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 7th April, 1937:—

C. OF S. BILL No. 2 OF 1937.

A Bill to control the Coastal Traffic of India.

WHEREAS it is expedient to encourage the development of an Indian Mercantile Marine :

AND WHEREAS for this purpose it is expedient to control unfair competition in the Coastal Traffic of India ;

It is hereby enacted as follows :—

Short title,
extent and
commencement.

1. (1) This Act may be called the Control of Coastal Traffic of India Act, 1937 .

(2) It extends to the whole of the coastal traffic of British India and of the continent of India.

(3) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Definitions.

2. (1) Any person employing a ship or sailing vessel for carriage of goods or passengers between any two ports in British India or between any port in British India and any port or place in the continent of India and *vice versa* shall be deemed to carry on business in coastal traffic in British India.

(2) The word "person" shall include any company or association or body of individuals whether incorporated or not.

(3) The word "owner" shall include a charterer and in the case of a person not resident in British India shall include his agent in British India.

Agent of non-resident owner.

3. Any owner who is not a resident of British India shall within three months from the date of this Act coming into force lodge with the Governor General in Council the name and address of a person resident in British India who shall be his agent for the purpose of his business. Every such owner shall execute general power of attorney in favour of such an agent, and a copy of such power of attorney shall be lodged with the Governor General in Council along with the name and address of such agent.

Licence to carry on business in coastal traffic.

4. No person being the owner of a ship or sailing vessel of any description shall be entitled to carry on business in coastal traffic in British India unless he obtained a licence for the purpose from the Governor General in Council.

Penalty for carrying on business without licence.

5. Any person carrying on business in coastal traffic in British India without obtaining a licence as herein provided shall be liable to be punished on summary conviction by a Magistrate with First Class powers appointed for the purpose by the Governor General in Council with a fine not exceeding Rs. 10,000 and may at the option of the Governor General in Council be debarred from bringing in any ship or sailing vessel into any port in British India for such terms and on such conditions as the Governor General in Council may direct, in which latter event the Governor General in Council shall allow such person an opportunity of making his submissions, if any, and shall mention the grounds on which such order is based.

Minimum and maximum freight and fare.

6. No owner of a ship or sailing vessel shall charge as freight and fare for the carriage of goods and passengers, respectively, from any port in British India to any other ports in British India or the continent of India or *vice versa* a sum below the minimum sum prescribed for the purpose by the Governor General in Council, nor shall he or they charge any sum in excess of the maximum prescribed for the purpose by the Governor General in Council.

Grant of rebates or concessions.

7. No owner of a ship or a sailing vessel engaged in carrying on the business of coastal traffic in British India shall, directly or indirectly, pay any rebate or commission to any person whose goods may be carried by such owner in his ship or sailing vessel to or from any port in British India, provided, however, that nothing herein contained shall prevent such owner from paying the customary brokerage or commission to any broker who procures freight for him.

Penalties for breach of clauses 6 and 7.

8. Any owner of a ship or a sailing vessel committing a breach of the provisions of clauses 6 and 7 hereof shall be liable to have his licence cancelled altogether or suspended for a period considered necessary by a notification to be published by the Governor General in Council in the Official Gazette, provided that the notification shall mention the grounds on which such licence is being cancelled or suspended. No licence shall be either cancelled or suspended without first giving to such owner an opportunity of making his submissions, if any, to the Governor General in Council.

Terms and conditions of licence and the fixing of maximum and minimum rates.

9. The Governor General in Council may, by notification in the Official Gazette, from time to time prescribe (a) the terms and conditions upon which a licence to carry on business in coastal traffic shall be granted, (b) the minimum and the maximum rate which may be charged for carriage of goods or passengers from any port in British India to any other port in British India or Burma or Ceylon or *vice versa*.

Appeal.

10. Any owner aggrieved by either an order passed by the Governor General in Council debarring him from bringing any ship or sailing vessel into any port in British India in accordance with the provisions of clause 7 hereof, or an order cancelling his licence in accordance with the provisions of clause 8 hereof shall be entitled to prefer an appeal to the High Court, and such Court shall on such appeal be competent to set aside, confirm or modify any order passed by the Governor General in Council.

STATEMENT OF OBJECTS AND REASONS.

This Bill was originally introduced by me in the last Council and was circulated for eliciting opinions thereon. It however fell through with the dissolution of the Council.

It has since been redrafted with a view to meet certain criticisms to which the Bill as originally drafted had been subjected both as regards certain of its provisions as well as matters of which no cognizance had been taken.

The object of this Bill continues the same as before. It is intended to remove a possible impediment to the growth and development of the Indian Mercantile Marine. There is no question of any discrimination between British and Indian shipping. Past experience, however, shows that a well established powerful company engaged in coastal traffic can easily put a new venture out of action by unfair competition, *e.g.*, rate-cutting, grant of rebates, etc. The fear of unfair competition deters Indian capital being invested in coastal shipping. If the Governor General in Council be given power to prevent such competition, the fear will be largely allayed and a new line of commercial activity may be opened out to Indians.

By this Bill it is provided that only persons holding licences from the Governor General in Council will be entitled to carry on business in coastal traffic in India. Power is also given to the Governor General in Council to fix the maximum and the minimum rates of freight and fares and also to prevent the grant of rebates or other concessions which are calculated to reduce such minimum rates. The carrying on of business in coastal traffic without a licence is made penal as also the contravention of any rule prescribed by the Governor General in Council with regard to the grant of rebates or other concessions.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

[As introduced in the Legislative Assembly.]

A Bill to declare that properties of a Muslim dying intestate and without any heir devolve upon the Muslim Community.

WHEREAS doubts have arisen whether properties of an intestate owner dying without any heir should devolve upon the Muslim Community or be escheated to the Crown;

AND WHEREAS it is expedient to resolve such doubts;

It is hereby enacted as follows :—

Short title,
application and
extent.

1. (1) This Act may be called the Muslim Intestate Succession Act, 193 .

(2) It shall apply to the estate both moveable and immoveable of a Muslim, subject to the Muslim law of succession, dying intestate without any heir, and shall extend to the whole of British India.

Devolution of
intestate estate.

2. Notwithstanding any law or custom to the contrary, the estate of a Muslim, subject to the Muslim law of succession, dying intestate without any heir shall devolve on the Muslim Community and shall not escheat to the Crown.

STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to provide that the estate of an intestate Muslim, subject to the Muslim law, dying without any heir shall devolve on the Muslim Community in accordance with the *Shariat* in preference to its escheating to the Crown.

This rule of common law is inapplicable to Muslims who are subject to their own law which provides for such a contingency.

Section 112 of the Government of India Act provides :—

“The High Courts at Calcutta, Madras and Bombay in the exercise of their original jurisdiction in suits against inhabitants of Calcutta, Madras or Bombay, as the case may be, shall, in matters of inheritance and succession to lands, rents and goods, and in matters of contract and dealing between party and party, when both parties are subject to the same personal law or custom having the force of law, decide according to that personal law or custom, and when the parties are subject to different personal laws or customs having the force of law, decide according to the law or custom to which the defendant is subject.”

The effect of this section is that in matters of inheritance and succession to both moveable and immoveable properties, the law to be administered to the Muslims is their personal law which *in this respect* has not been altered or established by any legislative enactment. The pure rule of Muslim law is that the property of an intestate and heirless Muslim on his death devolves upon the Muslim Community on whose behalf the *Baitul-mal*, if existing in any locality, may receive it, or which may make any other arrangements for the custody, maintenance and expenditure of such properties. (a) Includes figures for the Eden Canal which was amalgamated with the Damodar Canal system with effect from the year 1933-34.

3. General.—The total capital expenditure of the department during 1935-36 was Rs. 5,26,020 after deducting receipts and recoveries on capital account amounting to Rs. 13,827 as against Rs. 2,48,024 in the previous year. The major portion of this capital outlay was on the Damodar Canal Project, only about Rs. 5,800 being spent on the Calcutta and Eastern Canals and the Madaripur Bil Route.

The only important project which was under construction during the year under review is the Damodar Irrigation Canal. The work on the project which has been designed to irrigate about 200,000 acres of land, mostly for cultivation of paddy in the districts of Burdwan and Hooghly, was started in 1926-27 and was practically completed during the year under review. The revenue account of the canal was opened from 1st April 1933 and the construction estimate closed from 30th September 1935. In August 1935, an unusually high flood in the river Damodar (the highest known since 1913) breached the Damodar Left Embankment in several places and inundated the countryside. The flood water made its way into the canal by breaching the bank of the canal system and caused considerable and serious damage to the main

weir of the project called the Anderson Weir, necessitating reconditioning of the weir and heavy special repairs to protective works downstream of all the structures in the canal system. An estimate amounting to Rs. 12,98,208 was sanctioned and the special repair work taken up during the cold weather of 1935-36.

During the year under review the rainfall in the irrigable area of the Damodar Canal was insufficient and unequal in distribution and so there was a keen demand for canal water throughout the irrigation season. The total area actually irrigated by the canal was 132,278 acres as compared with 85,081 acres in the previous year. As in the previous year, crop-cutting experiments were carried out in several mauzas which showed that the outturn of paddy in the irrigated areas was very satisfactory in comparison with that in the non-irrigated areas.

The newly-constructed Bakreswar Irrigation Canal in the Birbhum district irrigated an area of 6,489 acres as against 7,760 acres in the previous year. Owing to drought in the catchment area of Bakreswar river after the middle of September, it was not possible to irrigate all the leased area during the

critical period of October and consequently the crops in some fields suffered.

The Bengal Development Bill was passed by the Bengal Legislative Council in 1935. It provides for the development of lands in Bengal and imposes a levy in respect of increased profits resulting from improvement works constructed by the Government. The legislation was the outcome of the suggestion in the Irrigation Department Committee's Report, 1930, that the cost of schemes financed by the Government out of loan funds should be met by means of a cess levied at a flat rate on the total area benefited. The Act (the Bengal Development Act XVI of 1935) which came into force from 23rd January 1936 will be applicable to the areas covered by the newly-constructed Damodar Canal and the Bakreswar Canal.

The new locks and sluices on the Lower Kumar river were operated during the year and gave satisfactory results.

The project for the construction of the Grand Trunk Canal to provide a shorter inland steamer route from Calcutta to Eastern Bengal and Assam was held in abeyance. A capital expenditure of Rs. 9,629 (direct and indirect) was, however, incurred as in previous years on the upkeep of buildings on the acquired land and on petty establishment and tools and plant, with a return of Rs. 12,195 on account of receipts and recoveries on capital account.

The expenditure on revenue account during the year amounted to Rs. 25,94,249 of which Rs. 4,22,552 were spent on irrigation works proper, the principal items being the Midnapore Canal, the Bakreswar Canal, the Damodar and Eden Canals and the contour surveys in Western and Central Bengal. The expenditure on the Midnapore Canal was Rs. 1,31,834 which included Rs. 43,691 for maintenance and repairs and Rs. 87,706 for overhead charges. The expenditure on the Bakreswar Canal was Rs. 12,422, while that on the Damodar Canal including the Eden Canal amounted to Rs. 2,15,993. The administrative approval of Government was accorded to contour surveys of certain areas in Central and Western Bengal being undertaken at an estimated cost of Rs. 1,46,000 as it is expected that from such surveys projects and

schemes will emerge in the near future which will be remunerative and suitable for adoption under the Bengal Development Act. The survey for which a programme of three years was drawn up commenced from the cold season of 1936 and a sum of Rs. 28,186 was spent during 1935-36. The rest of the expenditure on revenue account was on navigation, embankment and drainage works. The expenditure on navigation was mainly for (1) upkeep of the five suction dredgers, (2) maintenance of the Hijli Tidal Canal, (3) maintenance of the existing steamer and boat routes from Calcutta to Eastern Bengal and Assam including the reconstruction of the bridges over the Calcutta Canals and Tolly's Nala to the cost of which the Calcutta Improvement Trust and the Calcutta Corporation contributed in certain cases and (4) conservancy of some of the principal navigable rivers of the province, such as the Ganges, the Dhalleswari and the Buriganga. The expenditure on the Hijli Tidal Canal, the Calcutta and Eastern Canals, the Sundarbans Steamer Route and the Madaripur Bil Route was Rs. 1,32,212, Rs. 5,55,017, Rs. 47,188 and Rs. 1,82,085 respectively, as compared with Rs. 58,724, Rs. 6,27,712, Rs. 54,000 and Rs. 2,26,053, while the cost of upkeep of the dredgers amounted to Rs. 92,915 as against Rs. 80,432 in the previous year. There was a marked decrease in the working expenses of the principal navigation canals except the Hijli Tidal Canal. The increased expenditure on the latter was mainly due to the construction of a sluice at Kalinagar for improving the drainage in that locality. Out of the 5 suction dredgers, 4 were laid up throughout the year, the dredger "Foyers" only being employed on dredging the Lower Kumar river, the Haturia Shoal, the Meghna Shoal and the Mongalpur and Haridaspur Shoals. To avoid heavy maintenance charges on these dredgers, endeavours were made by advertisement both in India and abroad to sell the dredgers "Burdwan" and "Cowley" but no buyers were found. It has since been decided to sell these two dredgers by parts as scrap.

The total revenue receipts and working expenses of the department during the year were Rs. 13,78,369 and Rs. 25,94,249 respectively as against Rs. 11,40,766 and Rs. 26,19,766 in the previous year. The appreciable increase

of over Rs. 2,30,000 of revenue was due to increased collection of water rates from the Damodar Canal area, where, as already stated, in consequence of a keen demand for canal water throughout the irrigation season a greater area came under lease than in the previous year. The area irrigated from the Bakreswar Canal slightly decreased on account of non-supply of water in the month of October due to drought in the catchment area of the Bakreswar river as already explained and consequently the receipt was about Rs. 2,000 less than that in the previous year. The yield from the Midnapore Canal shows no sign of improvement although the irrigated area of the canal increased to some extent during the year as compared with the previous year. This is possibly due to the bad economic condition of the raiyats in this tract as stated in the previous year's report. The causes of this decline in revenue from the canal are, however, being further investigated. The receipt from the Hijili Tidal Canal was about Rs. 30,000 more than that in the previous year. The financial results of other navigation canals were somewhat more favourable than in the previous year, as, though the receipts from these canals were on the decrease due to continued trade depression, the working expenses were considerably less.

Owing to financial stringency it was not possible to undertake any of the major schemes already administratively approved and the policy of Government has still perforce been restricted to smaller schemes of local benefit. The Ghuznavi Cut—a channel connecting the Mathabhanga river with the Nabaganga near Meherpur, constructed in 1933 by the District Board of Nadia with a contribution from Government and the Bejoy Cut—to flush the Bhairab-Khadak river by means of a junction cut from the Mathabhanga at Joynagar carried out by the District Board of Nadia in 1935, are instances of schemes of this nature. The Ghuznavi Cut operated successfully during the year, but the Bejoy Cut did not function satisfactorily owing to the late opening of the cut and also to the existence of obstructions in the bed of the Bhairab-Khadak river. Attempts are being made to remove these obstructions.

An amount of Rs. 3,03,000 was allocated to this department out of the Government of India grant of about Rs. 16,00,000 to this province for rural

upliftment. The amount was meant for executing small drainage and flushing schemes to improve rural conditions. Accordingly schemes of this nature were selected in some of the districts of Bengal in consultation with the district authorities and district boards during the year under review. In some districts such schemes have already been completed, in others they are in progress, while in several districts the schemes are under preparation.

The free flushing of the malaria-stricken areas at Naraingarh, Pingla-Kotai and Kola-Panskura in the Midnapore district with the water of the Midnapore Canal was continued during the year. The area actually flushed covered 11,020 acres of land. The result was on the whole satisfactory.

Flushing of the Gobranulla by admitting water from the Kalkali river through the Gobra Cut, and of the Uttampur Cut connecting the Jalangi river at Uttampur with the Bhairab river at Natua was also carried out during the flood season with a satisfactory result.

The department maintained about 1,290 miles of embankments during the year. The policy of gradually abandoning those embankments which by experience have been found to be injurious to the country by obstructing the free discharge of flood-water was continued and a length of 2 miles 4,020 feet of existing embankments was abandoned. The total amount spent on maintenance of embankment and drainage works, such as Magrahat drainage works, Rajapur drainage works, etc., was Rs. 9,00,895 as against Rs. 8,99,867 in the previous year.

The department has also to deal with the protection of towns from river erosion. During the year under review the river dealt with was the Dharla at Kurigram. Some years back the river abandoned its old course and developed a new one resulting in very rapid erosion at Kurigram where considerable land and property were absorbed and the existence of the subdivisional town was also threatened. Accordingly during the year protective measures were undertaken at a cost of Rs. 18,431 to save the town. There was also erosion at Chandpur and Narayanganj and those two sites were kept under observation.

The department also undertakes surveys and investigations with a view to examining the feasibility of working out schemes for irrigation and drainage purposes. It also conducts discharge observations and collects hydraulic data of all important rivers. Apart from starting work on the contour survey of Central and Western Bengal already alluded to, many important surveys were carried out during the year of which the following were the chief:—

(1) Survey and borings in connection with the scheme for flushing the area north-west of Bhagwangola retired line, (2) survey of the area between Chalan bil and Fuljore bridge, (3) special survey for the alignment of a cut west of Kendua village to drain Tildanga area, (4) survey of the Darkeswar Reservoir Project, (5) survey of the test line for the More main canal, (6) survey of the Reservoir area for the More Reservoir Project, (7) aerial survey of the Padma from Faridpur to Haturia, (8) survey of the old Brahmaputra river, (9) survey of the river Attarahanka and (10) survey of the river Gumti in the district of Tippera. Besides, gauge-readings and discharges of important rivers in North Bengal and hydraulic condition in the Malda district were observed.

The following is a list of important works under execution or in charge of this department:—

The last two works are carried on by the Joint Steamer Companies on behalf of this department.

4. The Damodar Canal Project.—

The total capital expenditure (direct and indirect) to the end of the year 1935-36 was Rs. 1,11,05,061 as against

the revised estimate of Rs. 78,14,981 sanctioned by the local Government in 1925. A second revised estimate prepared by the Chief Engineer showing up-to-date financial results of the project is now under the examination of Government. Receipts and working expenses during the year amounted to Rs. 4,74,182 and Rs. 2,15,993 respectively as against Rs. 96,671 and Rs. 2,52,120 in the previous year. The result was a net revenue of Rs. 2,58,189 as against the deficit of Rs. 1,55,449 in the previous year.

5. The Bakreswar Irrigation scheme.—The construction work in connection with the scheme was started in 1927 and practically completed in March 1933. The capital expenditure (direct and indirect) to the end of the year 1935-36 amounted to Rs. 7,13,875 against the sanctioned estimate of Rs. 4,90,596. It has been decided that a revised estimate is no longer necessary; so a completion report on the scheme is now under preparation. The gross revenue and working expenses during the year were Rs. 15,544 and Rs. 12,422 respectively, the result being a net revenue of Rs. 3,122 only as against Rs. 5,114 in the previous year. For reasons explained in paragraph 3 above, the area under irrigation during the year was less than that in the previous year and this accounts for the unfavourable financial result of the year.

6. The Midnapore Canal.—The canal consists of two weirs at Midnapore and Panskura, 65 $\frac{1}{3}$ rd miles of main and branch canals used both for irrigation and navigation purposes and 284.87 miles of distributaries and village channels. No capital expenditure was incurred on the canal during the year. The gross receipts and working expenses were Rs. 61,785 and Rs. 1,31,834 respectively as against Rs. 63,610 and Rs. 1,48,470 in the previous year. The result was a deficit of Rs. 70,049 as against the deficit of Rs. 84,860 in the previous year.

7. The Grand Trunk Canal Project.—The construction of the Grand Trunk Canal Project at an estimated cost of Rs. 2,49,49,000 (direct), which was started in 1920-21, has been held in abeyance. The expenditure on direct and indirect capital outlay to the end of the year 1935-36 after allowing for receipts and recoveries on capital account amounted to Rs. 14,25,330.

8. The Hijili Tidal Canal.—This khal with the Terapakhia Pass Khal, Palaboni Khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal 49 $\frac{3}{4}$ miles in length. No capital expenditure was incurred on the canal during the year. The gross receipts and working expenses amounted to Rs. 63,900 and Rs. 1,32,212 respectively as against Rs. 33,846 and Rs. 58,724 in the previous year, the result being a deficit of Rs. 68,312 as against the deficit of Rs. 24,878 in the previous year. The reasons for heavy working expenses during the year have been explained in paragraph 3 above.

9. The Calcutta and Eastern Canals.—These consist of natural and artificial channels, about 834 miles long, for maintaining communication between Calcutta and Eastern Bengal. A capital expenditure of Rs. 4,033 was incurred during the year on the demarcation of Government land along Tolly's Nala. The gross receipts and working expenses amounted to Rs. 3,27,525 and Rs. 5,55,017 respectively as against Rs. 3,68,740 and Rs. 6,27,712 in the preceding year. The result was a deficit of Rs. 2,27,492 as against the deficit of Rs. 2,58,972 in the previous year. As explained in paragraph 3 above, the fall in receipts was due to continued trade depression.

10. The Sundarbans Steamer Route.—This route is about 350 miles long. There was no capital expenditure on the route during the year. The gross revenue and working expenses amounted to Rs. 63,312 and Rs. 47,188 respectively as against Rs. 70,325 and Rs. 54,000 in the previous year, the result being a net revenue of Rs. 16,124 as against the net revenue of Rs. 16,325 in the preceding year.

11. The Madaripur Bil Route.—This route connects the Madhumati and Kumar rivers in the Faridpur district and is about 38 miles in length. A capital sum of Rs. 1,748 was spent during the year to meet the arrear claim of the contractors in connection with the construction of locks and sluices in the Lower Kumar river. The gross revenue and working expenses amounted to Rs. 1,54,890 and Rs. 1,82,085 respectively as against Rs. 1,97,270 and Rs. 2,26,053 in the previous year, the result being a deficit of Rs. 27,195 as against the deficit of Rs. 28,783 in the preceding year.

12. Dredgers.—As already stated in paragraph 3, out of the five suction dredgers, only “Foyers” was employed for 49 days in all during the year under review. The hire earned by her amounting to Rs. 12,180 together with a sum of Rs. 5,738 representing value of spare parts transferred to stock account was credited to the revenue account of the dredger. The rest of the dredgers, viz., “Ronaldshay”, “Cowley”, “Burdwan” and “Alexandria”, remained idle throughout the year. The “Ronaldshay” however, earned Rs. 2,315 and the “Cowley” Rs. 435 as hire for certain pontoons lent to the Eastern Bengal Railway for work connected with the Hardinge Bridge. Out of the sum of Rs. 2,315 earned by the “Ronaldshay”, Rs. 1,150 were credited to her capital account and the balance, viz., Rs. 1,165, together with a sum of Rs. 6,125 representing mainly the value of spare parts transferred to stock, was credited to her revenue account. Out of Rs. 435 earned by the “Cowley” a sum of Rs. 195 was credited to her capital account and the balance, viz., Rs. 240, together with a sum of Rs. 2,872 representing value of spare parts transferred to stock, was credited to her revenue account. Sums of Rs. 698 and Rs. 561 were credited to the revenue accounts of the dredgers “Alexandria” and “Burdwan” respectively on account of the value of certain spare parts of these dredgers transferred to stock.

Taking all the dredgers together the revenue receipts amounted to Rs. 29,579, while their working expenses amounted to Rs. 92,915 as against Rs. 80,432 in the previous year.

13. Minor Irrigation, Navigation, Embankment and Drainage Works for which neither Capital nor Revenue Accounts are kept.—These include the Amjore Weir, the Salbund Weir, the Orissa Coast Canal, the Nadia rivers, the Magrahat Drainage Scheme, Government embankments, the survey and other works enumerated in the list at the end of paragraph 3 above. Total receipt from these works amounted to

Rs. 1,87,652, while their working expenses were Rs. 12,24,583 as against Rs. 11,59,554 in the previous year. The increased working expenses were mainly due to the contour survey of Western and Central Bengal which was started during the year under review.

14. Gumti Right Embankment.—At the time of high flood in the river Gumti in Tippera district, the sudden rush of water causes breaches in the Gumti river embankment almost every year resulting in considerable damage to crops and properties of the public in general. During the year under review investigations were started to find out a solution by providing escapes in the embankment.

15. River training works.—Training works were carried out in the rivers Dhalleswari and Buriganga in order to maintain a navigable depth of water during the low water season and to ensure a supply of good drinking water to the city of Dacca. The work was carried out through the agency of the Joint Steamer Companies with a Government subsidy of Rs. 17,500.

The lower reaches of the Baraitali channel were maintained in good condition and were open to steamer traffic throughout the year.

The good effect of the silt-clearance of the Lohajang river in 1931-32 continued and a fair depth in the river up to the entrance of the Gala Khal was maintained.

16. General economic condition.—The rainfall during the year under review was below normal and was unequally distributed. The result was a partial failure of crops practically all over the country except in the areas commanded by the Government canals and served by cuts in the river bunds where possible. There was scarcity in some parts of Bengal and the general economic condition of the country continued to be unfavourable owing to trade depression.

Khulna.—No. 1938P.H.—4th June 1937.—The following draft of rules, which, in exercise of the power conferred by clause (j) of sub-section (2) of section 101 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), the Governor proposes to make for the regulation of the supply of filtered water to private holdings for domestic use in the Bagerhat union in the district of Khulna, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 15th July 1937, and any objection or suggestion with respect thereto received by the undersigned, through the District Magistrate, before that date will be duly considered:—

Draft Rules.

So long as the union board deems it practicable and consistent with the maintenance of an efficient water-supply, it may grant to any owner or occupier of a holding paying a union rate imposed under the provisions of Chapter V of the Bengal Village Self-Government Act, 1919, at an enhanced rate for the supply of water amounting to not less than Rs. 3 per quarter, a connecting pipe from the service-pipes of the union board for the purpose of leading water to such holding for domestic use only.

1. For the purpose of these rules "holding" shall mean building or buildings with the land appertaining thereto held under one title or agreement and surrounded by one set of boundaries.

2. The owner or occupier of any holding requiring water to be laid on to such holding for domestic use must apply for the same on the printed form "A" to be supplied free of cost at the union board office. The conditions subject to which connection to a holding will be given are set out in the form, and the owner or occupier shall sign the statement undertaking to observe the rules before a house connection will be given.

3. A fee of Rs. 125 shall be paid to the union board by such owner or occupier for each connection to a union board main supply-pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

4. Each holding must have a separate connection to the union board main supply pipe, and an extension from the communication pipe of one holding to another holding shall not be permitted, and combination of the holdings for the purpose of these rules shall not be allowed.

5. The connection shall consist of two portions---

(a) the service-pipe from the street main to the boundary of the holding, including ferrule, stop-cock and check-pipes;

(b) the storage tank (or tanks) with service-pipe connecting to it from the boundary of the holding, also outlet pipes, taps and other accessories as required.

6. The items referred to in clause (a) of rule 5 shall be provided and fixed by and at the expense of the union board, and such pipes and fittings shall remain as its property.

7. The items referred to in clause (b) of rule 5 shall be provided and fixed at the expense of the owner or occupier and shall be maintained by him in good working order. The tank is to be suitably covered and protected and is to be provided with locked lid, ball-valve, stop-valve and overflow pipe. The inlet and outlet pipes shall be so laid that they may be protected from sun heat.

8. The owner or occupier shall not permit the service-pipe, including the items referred to in clauses (a) and (b) of rule 5 or any part thereof, to be altered, removed or interfered with by any person other than an authorised representative of the union board, who shall be empowered by the board to alter or adjust the service-pipe as may from time to time be necessary for the maintenance of the requisite flow of water. No tapping (or branching off) of the service-pipe shall be allowed except at a level approximately the same as that of the ball-valve.

9. The tank referred to in rule 5 (b) shall be durable and water-tight and the cover, overflow pipe, and other accessories shall be so constructed that mosquitoes cannot enter the tank. The ball-valve and the other fittings shall be exact duplicates of standard samples kept in the office of the union board and approved by the board at a meeting. The storage tank or tanks shall be cleaned and sterilized quarterly at the expense of the owner or occupier under the supervision of an officer of the union board.

10. Every storage tank shall be fitted with an overflow-pipe, the end of which shall project over the wall of the building and shall be placed in a conspicuous position. Discharge of water from the overflow pipe means that the ball-valve is failing to function, and the owner or occupier shall notify the waterworks officers every time he finds such discharge occurring.

11. Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to a supply of water corresponding to the quarterly amount of union rate payable, according to the following table:—

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice, the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

5. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the Board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by that person:

Provided that where the conditions, which led the District Health Officer to pass such an order, are not attributable to any act or default of the persons in possession of the property, the Board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

(v) No candidate shall make more than one application in respect of this examination.

(vi) A candidate shall, except in very exceptional circumstances, appear personally before the District Officer or the Political Officer or Agent who signs the attestation form.

2. A candidate must be an unmarried man and either—

(a) a British subject of Indian domicile whose father (if alive) is a British subject or a subject of a State in India, or a British protected person of the tribal areas; or (if dead) was at the time of his death either a British subject or a subject of a State in India or a British protected person of the tribal areas, or a person in the permanent service of the Crown or a person who had retired from that Service;

(b) a Ruler or a subject of a State in India or a British protected person of the tribal areas.

Provided that in the case of a British subject the requirement of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training for appointment to the Royal Indian Navy. The parents or guardians of candidates selected for the engineer branch of the Royal Indian Navy will, in addition, be required to covenant with the Secretary of State for India in Council that in the event of failure to comply with certain contingencies set forth in an agreement relating to the completion of the course of training in England and thereafter the acceptance of a commission, in the Royal Indian Navy and the period he is required to hold such a commission, he will pay the full cost which the Government of India shall have expended on the training of the candidate in England. Should it be found that the declaration in regard to discharge of financial obligations during the period of training is false in any respect, the candidate will be liable to immediate removal.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor-General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Federal Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers in the Royal Indian Navy.

5. A candidate for this examination must have been born not earlier than the 2nd May 1918 and not later than the 1st May 1920.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Royal Indian Navy. A candidate who after examination by a Medical Board is found not to satisfy these requirements will not be accepted for admission to the Service.*

7. A candidate must satisfy the Federal Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Royal Indian Navy.

8. The decision of the Federal Public Service Commission as to the eligibility or otherwise of a candidate shall be final.

9. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Federal Public Service Commission.

10. Any attempt on the part of a candidate to enlist support for his application will disqualify him for admission to the Royal Indian Navy.

11. Candidates must pay the following fees:—

- (i) Rs. 7-8-0 with the application form,
- (ii) if accepted for admission to the examination, Rs. 50 immediately after the receipt of the certificate of admission.

(Only Treasury Receipts for these amounts will be accepted by the Federal Public Service Commission.)

14. From the marks assigned to candidates in each subject such deduction will be made as the Federal Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

The examination will be conducted by the Federal Public Service Commission.

2. The examination will be a combined one for the purpose of filling vacancies in the Indian Military Academy and the Royal Indian Navy. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both he will ordinarily be assigned to the one for which he expressed a preference in his application; but the Government of India reserve power to assign him to either.

3. At this examination 15 vacancies will be offered for entry to the Indian Military Academy. Copies of the Rules and the Application Form, etc., may be obtained from the Provincial Government, Administration or Darbar concerned.
